INDEPENDENT AUDITORS' REPORT

To the Members of British Columbia Used Oil Management Association

Opinion

We have audited the financial statements of British Columbia Used Oil Management Association (the Association), which comprise:

- the statement of financial position as at December 31, 2021
- the statement of changes in net assets for the year then ended
- the statement of operations for the year then ended
- the statement of cash flows for the year then ended
- and notes to the financial statements, including a summary of significant accounting policies

(Hereinafter referred to as the "financial statements").

In our opinion, the accompanying financial statements, present fairly, in all material respects, the financial position of the Association as at December 31, 2021, and its results of operations and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the "***Auditors' Responsibilities for the Audit of the Financial Statements***" section of our auditors' report.

We are independent of the Association in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Association's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Association or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Association's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
- The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Association's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Association to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

As required by Societies Act (British Columbia), we report that, in our opinion, the accounting policies applied in preparing and presenting the financial statements have been applied on a basis consistent with that of the preceding period.

British Columbia Used Oil Management Association

Notes to Financial Statements

December 31, 2021

1 Authority and purpose

The British Columbia Used Oil Management Association (“the Association”) was incorporated under the Society Act of the Province of British Columbia on March 18, 2003 and commenced active operations effective July 1, 2003. It was formed to establish and administer a waste minimization and recycling program under the Post-Consumer Residual Stewardship Program Regulation, B.C. Reg. 111/97. In 2004, the Post-Consumer Residual Stewardship Program Regulation, B.C. Reg. 111/97 was repealed and replaced by the Recycling Regulation, B.C. Reg. 449/2004. As a not-for-profit organization, the Association is exempt from income taxes, provided the requirements of Section 149(1)(l) of the Income Tax Act (Canada) continue to be met.

2 Summary of significant accounting policies

These financial statements have been prepared by management in accordance with Canadian accounting standards for not-for-profit organizations in Part III of the CPA Canada Handbook. The Association’s significant accounting policies are as follows:

a) Revenue recognition

The Association follows the deferral method of accounting for contributions. The Association recognizes environmental handling charges (“EHC”) when the lubricating oil, oil filters and oil containers are first sold by a registrant and when there is reasonable assurance of collection. Included in EHC revenue are amounts owed to the Association for unremitted EHC fees identified by the Association’s compliance review process. Amounts identified by the compliance review are recognized as revenue in the year in which the compliance review is completed.

The Association has internally restricted funds in investments to maintain sufficient cash resources for operational needs. Investment income earned on these funds is recognized as revenue in the year it is earned.

b) Return incentives and return collection facilities incentives

Return incentives (“RI”) and return collection facilities incentives (“RCF”) are recognized as incurred in the year when the lubricating oil and antifreeze materials are delivered to a registered processor’s facility by a registered collector and completed claim forms are received and accepted by the Association.

c) Cash

Cash includes cash on deposit with its financial institutions.

British Columbia Used Oil Management Association

Notes to Financial Statements

December 31, 2021

2. Summary of significant accounting policies (continued)

d) Property and equipment

Property and equipment are recorded at cost, less accumulated amortization. Amortization is provided on a straight-line basis at the following annual rates:

Computer software	5 years
Furniture and fixtures	5 years
Leasehold Improvements	5 years

Assets are not amortized until available for use. When a property and equipment no longer has any long-term service potential to the Association or the value of future economic benefits is less than net carrying amount, the excess of its net carrying amount over any residual value is recognized as an expense in the statement of operations.

e) Financial instruments

The fair value of a financial instrument on initial recognition is normally the transaction price, which is the fair value of the consideration given or received. Subsequent to initial recognition, the fair values of financial instruments that are quoted in active markets are based on bid prices for financial assets. Transaction costs on financial instruments are recognized at fair value when incurred.

The Association's financial assets include cash, accounts receivable and investments. Cash and accounts receivable are initially recorded at fair value and subsequently accounted for at amortized cost using the effective interest rate method. Investments in guaranteed investment certificates are recorded at amortized cost and other investments are recorded at fair value. Unrealized gains and losses, dividends and interest income are included as investment income in the statement of operations. The Association's financial liabilities include RI and RCF incentives payable and accounts payable and accrued liabilities. All financial liabilities are initially measured at fair value, and subsequently accounted for at amortized cost using the effective interest rate method.

All derivative instruments, including embedded derivatives, are recorded at fair value unless exempted from derivative treatment as a normal purchase and sale. The Association has determined that it does not have any derivatives and has not entered into any hedge transactions.

Financial assets are assessed for impairment on an annual basis at the end of the fiscal year if there are indicators of impairment. If there is an indicator of impairment, the Association determines if there is a significant adverse change in the expected amount or timing of future cash flows from the financial asset. If there is a significant adverse change in the expected cash flows, the carrying value of the financial asset is reduced to the highest of the present value of the expected cash flows, the amount that could be realized from selling the financial asset or the amount the Society expects to realize by exercising its right to any collateral. If events and circumstances reverse in a future period, an impairment loss will be reversed to the extent of the improvement, not exceeding the initial carrying value.

British Columbia Used Oil Management Association

Notes to Financial Statements

December 31, 2021

2. Summary of significant accounting policies (continued)

f) Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the year. Items subject to estimates and assumptions include the estimated useful lives of property and equipment, collectability of accounts receivable, estimates of return incentives and return collection facilities incentives paid for ineligible containers, and accruals for EHC fees not submitted to the Association by the registrant until the following year. Actual results could differ from these estimates.

g) Allocated expenses

Expenses relating to management and administration contracts are allocated between program costs and administrative costs as noted below. Expenses relating to legal fees are allocated between program costs and administrative costs as noted below unless specifically related to a program or administrative activity. The Association allocates these expenses by determining management's best estimate of resources spent on program activities and administration activities each year.

	2021	2020
	%	%
Management and administration contracts

Leasehold Improvements	7,386	985	6,401	-
	<u>224,884</u>	<u>65,048</u>	<u>159,836</u>	<u>175,870</u>

6 Accounts payable and accrued liabilities

Included in accounts payable are government payroll remittances payable of \$3,639 (2020 - \$3,538) related to payroll remittances on Directors' fees and CEO salary.

7 Internally restricted net assets

The Board of Directors has established a reserve fund. The purpose of the reserve fund is to cover the costs of the following: winding up the Association's programs; ensuring there are sufficient cash resources to meet operational needs; ensuring there are sufficient cash resources to fund any unanticipated changes to the Association's programs and mandate; and to cover the cost of any unforeseen claims or events.

Excess revenue over expenditures not required to cover the cost of ongoing programs may be allocated to the reserve fund as determined by the Board of Directors. In addition, the Board of Directors has targeted that the reserve fund be maintained at an amount equivalent to 12 months of the Association's expenses and contractual commitments. As of December 31, 2021, that target had not been reached.

British Columbia Used Oil Management Association

Notes to Financial Statements

December 31, 2021

8 Commitments

Under the terms of a financial services and use agreements expiring August 2023 and additional agreement expiring August 31, 2022, the Association is charged a fee for provision of financial administration services of various staff.

Under the terms of an employment service agreement expiring December 2025, the Association is charged a monthly rate for provision of professional and technical services.

The Association office lease agreement expires April 30, 2025. The Association currently subleases part of the office space to offset its net cost. The commitment noted below is before the sublease amounts.

The estimated minimum annual payments required under these agreements until expiry are as follows:

	Contract services \$	Facilities \$	Total \$
2022	526,431	143,795	670,226
2023	408,098	143,795	551,893
2024	171,433	147,564	318,997
2025	171,433	147,564	318,997
	<u>1,277,395</u>	<u>582,718</u>	<u>1,860,113</u>

9 Ineligible containers

The RI paid for used oil containers may include payments for ineligible containers from related products such as windshield washer fluid and fuel or oil additives. Containers for these products are currently excluded from the Association's program.

Since the containers are generally made of the same plastic as used oil containers, there is limited economic or environmental benefit in separating these containers from the used oil containers waste stream. There are also additional costs related to segregating these materials. On account of these factors, the Association has elected not to strictly enforce the removal of these containers in RI payments.

Based on studies performed by independent consultants, the Association has determined that the percentage of ineligible containers is approximately 10% (2020 - 10%) by weight. This percentage is used to estimate the amount spent on ineligible plastics. The estimated amount for the year ended December 31, 2021 is \$330,000 (2020- \$307,000).

British Columbia Used Oil Management Association

Notes to Financial Statements

December 31, 2021

10 Allocated expenses

For the years ended December 31, 2021 and 2020, total expenses allocated between program costs and administrative costs were as follows:

	Program costs	Administrative costs	Total
	\$	\$	\$
December 31, 2021			
Management and administration contracts	132,276	520,495	652,771
Legal fees	80,142	140,936	221,078

	Program costs	Administrative costs	Total
	\$	\$	\$
December 31, 2020			
Management and administration contracts	93,684	442,031	535,715
Legal fees	105,840	189,685	295,525

11 Financial risk management

Credit risk

Credit risk refers to the risk that a counterparty may default on its contractual obligations, resulting in a financial loss. The Association is exposed to credit risk with respect to accounts receivable and investments. However, the Association is not exposed to any significant concentration of credit risk due to its large registrant base. Management monitors its accounts receivable regularly and provides for any amounts that are not collectible in the allowance for doubtful accounts (note 3). The Association manages credit risk for its investments by maintaining them with Chartered Schedule I banking institutions and ensuring they are invested in accordance with the Association's Statement of Investment Policies and Procedures.

There has been no change to the risk exposure from the prior year.

British Columbia Used Oil Management Association

Notes to Financial Statements

December 31, 2021

11. Financial risk management (continued)

Liquidity risk

Liquidity risk is the risk an entity will encounter difficulty in meeting its obligations. The Association manages its liquidity by monitoring its expenses, working capital and capital expenditures. The Association primarily meets its liquidity requirements through the EHCs and registration fees it earns. Operating shortfalls in cashflows occasionally arise due to unforeseen events. Investments and investment income are internally restricted to cover the cost of unforeseen claims and events. The Association prepares budget and cash forecasts to ensure it has sufficient funds to fulfill its obligations. The Association expects to continue to meet future requirements through these sources.

There has been no change to the risk exposure from the prior year.

Market risk

Market risk refers to the risk that the fair value or future cash flow of the Association's financial instruments will fluctuate because of changes in market prices. The Association is exposed to market risk with respect to its investments. Accordingly, the value of these financial instruments will fluctuate as a result of changes in market prices, market conditions, or factors affecting the net asset values of the underlying investments. Should the value of the financial instruments decrease significantly, the Association could incur material losses upon disposal of the instruments. This risk is mitigated by diversification of portfolio holdings amongst different asset classes and by holding investments with varying maturity dates and a variety of issuers.

There is no change in risk exposure from the prior year.

Impacts of COVID-19

On March 12, 2020, the World Health Organization declared the outbreak of the novel strain of coronavirus, specifically identified as "COVID-19", a pandemic. There was significant uncertainty regarding the extent and duration of the impact that the COVID-19 pandemic would have on the Association's operations in 2020 and beyond. As vaccination rates continue to improve and government mandated restrictions are lifted, there has been an overall increase in economic activity. However, the unpredictable nature of the spread of the disease as well as the unknown efficacy of the vaccines against new virus strains, and any additional government interventions or restrictions that may result, makes it difficult to determine the length of time that the Association's operations will continue to be impacted.
